Intro to Film/TV Production:
Semester 1:

Week 1 (3 hours): PROJECTS
"Show us what you know"

- Take your phone and make anything on the first day.
  Get it exported, critique the second day. *See "Show us what you know" lesson plan*

Weeks 2-5 (12 hours): PROCESS
Review and New skill acquisition:

- Video file formats/audio file formats
- Hands/on training with DSLR cameras how & why:
- Recording modes
- Low/bright light settings/color temperature
- F/T stops, focus, white balance
- Correct/Safe handling/storage/cleaning
- Basic framing and compositional techniques
- Basic lighting and 3-point lighting
- Basic sound equipment and acquisition
- Basic editing process/importing/exporting (DaVinci Resolve / Adobe Premiere)
- Tripods/boom mics/lav mics
- Online accounts Vimeo/YouTube/Google Drive
- Basic legality of online videos

Week 6-7 (6 hours): KNOWLEDGE
Developing techniques for creating narrative or documentary stories

- Narrative vs. Documentary / Structures
- Creativity/writing workshop
- Documentary/news projects structure/creation
- Creativity/writing workshop
- Storyboards/Shot lists/Overheads

Weeks 8-9 (6 hours): PROJECTS
DLC project: assign/plan/create/finish/view/critique

Weeks 10-11 (6 hours): PROJECTS
Basic interview project: assign/plan/create/finish/view/critique

- Sound acquisition/no camera movement
- Emphasize the three-point lighting setup

Weeks 12-13 (6 hours): PROJECTS
Basic silent film creation: assign/plan/create/finish/view/critique

- No music
- No dialogue
- No foley
- No more than 5 minutes

Weeks 14-15 (6 hours): PROJECTS
Basic journalistic story: assign/plan/create/finish/view/critique

- One location
- Tripod work only
- No more than 5 minutes

Week 16:

- Visit to a film studio

Week 17:

- Visit to a TV studio

These two weeks are for an ideal situation. There are people (i.e. Isaac Pletcher) who can be used as resources to help make these things happen. However, these can be modular weeks that can be put into any other place in the syllabus and can also be jettisoned to create more time for other projects.

Intro to Film/TV Production:
Semester 2:

Week 1 (3 hours): PROJECTS
"Show us what you've learned"

- Using a cellphone create a short interview based on the *"Auto Interview Rubric"*

Weeks 2-5 (12 hours): PROCESS
Review and New skill acquisition:

- Introduction to cinematography history
- Camera safety and usage quizzes
- Recording modes and functions quizzes
- Lighting and sound quizzes
- Second level lighting techniques
  - -Directional lighting
  - -Bouncing light
  - -Natural vs expressionistic light
- Second level sound acquisition
  - -Boom micing techniques
  - -Basic ADR techniques
  - -Basic Foley
- Second level editing techniques
  - -Basic green screen/matting
  - -Basic 3D effects (After Effects)

Weeks 6-7 (6 hours): PROJECT
Music Video Project:
assign/plan/create/finish/view/critique

- A quick intro to the medium and techniques
- Critiqued according to the rubric
- no more than 4 minutes

Weeks 8-10 (9 hours): PROJECT
Introduction to VO/VSOT packaging and creation.
assign/plan/create/finish/view/critique

- Critiqued according to the rubric
- No more than 5 minutes

Weeks 11-13 (9 hours): KNOWLEDGE/PROJECTS
Introduction to Documentary film inspiration and creation
Assign/plan/create/finish/view/critique

- Critiqued according to the rubric to be developed
- No more than 5 minutes

Weeks 14-17 (12 hours): PROJECTS
Student's choice of a narrative film, documentary film, VO/VOSOT package
Assign/plan/create/finish/view/critique

- Set benchmarks for students to meet each week
- Set requirements for projects with rubrics
- Projects critiqued by rubrics
- At least 8 minutes. no more than 12 minutes.

BASIC / ADVANCED FILM AND TV PRODUCTION

1. Materials
   A desktop or laptop computer, access to 1-to-1 daily, and Internet. Chromebooks will not work.

Hardware/Reusable Material	Rec. Unit	Cost/Unit
Green Screen & Lighting	1/Classroom	$180
Audio Recording Gear	1 per 3-4 students	$1,000
DSLR cameras *price alternatives at link below	1 per 3-4 students	$850*
Tripod	1 per camera	$130
16 GB (minimum) SD Card	1/camera	$10
Software (Each student needs access to a computer)		
Adobe Suite Licenses. (Adobe Premiere, Photoshop, After Effects - Required for IBC tests) (for schools of at least 100 users: $142/yr per transferable user) OR Davinci Resolve + Adobe Alternatives (IBC's not available)	1 License per student	(a) $240/yr per student (b) $330/yr per shared device OR Free

*Complete supply list with purchase links: https://app.milanote.com/1JaeW61mHyW48h?p=H0atI09wAyw

2. Required software, networking access, and access to LSU servers
   - Teachers will need to be able to share documents via Google Drive with LSU instructors.
   - Software to install on each computer: Adobe Creative Suite.
   - Principals will need to communicate with the district's information technology department to ensure that there are no technological restrictions that block access to servers in the lsu.edu or stempathways.lsu.edu domains. In addition, students must be able to access the following websites:

adobe.com	youtube.com	freesound.org	vimeo.org	archive.org

3. Required teacher collaborations
   Teachers will communicate with LSU instructors via a Google group set up for this purpose. Teachers will need to share sample student work with their designated LSU Pathway Point-of-Contact.
4. Required administration of course content, pre/post test, and research instruments
   All required materials and instruments will be either posted in a Google drive or their location announced via the Google group for this course.
5. Course Work
   Teachers must present the course material in sequence or as approved by collaboration with the LSU Pathway Point-of-Contact. Teachers are expected to deliver a minimum of 80% of the course material.
6. Other
   As this is a project-based learning class, we strongly suggest that each section of the course should be limited to a *maximum* of 20 students.
